1st June 2017

Dear Parents,

Fire Safety Incursion – LLA4 & LLA5

The Department of Fire and Emergency Services (DFES) has identified that Year 3 students are of an optimal age to receive and retain fire safety messages. So the Fire and Rescue Service at Wangara, D Platoon offered our school a FREE incursion.

At 1:10pm on the 28th of June we will participate in a Fire Safety incursion. We will listen to a 30min presentation on the duties of a firefighter, alarms, evacuation plans, getting down low etc, Then we will break into the 3 groups and go outside and have a look at the truck, the small 4wd, and have a squirt of the water (weather dependent.)

We have been told to bring cameras as it is a good opportunity to get a photo of the students holding the hose or sitting on the fire truck.

The incursion has had good reviews, and concepts such as... road crash rescue have been bought down to a very simplistic description of "helping people to get out of cars if they have bumped together and the doors don't open properly".

If the Firefighters receive a call out, the incursion will be postponed.

Regards, Clare Barnes, Lauren Westwood, Kirryn Phillips.

I give permission for my child _____ to attend the Fire Safety incursion.
