ZOO camp

Zoo camp was so much fun. When I got on the bus I was a bit scared but then I looked out the window and I loved looking at the city. When we got there we got our bags and we all went to the barn. After we put our bags we split up into 4 groups and did an animal hunt and found lots of cool animals like a lemur, a crocodile, a gibbon and a tree kangaroo. When we got back we had dinner (pizza & a juicibox). After dinner we got into 2 groups and my group went into a cold room where they kept all the reptiles. In there we played a game. Then we patted a bearded dragon called Chase. Chase felt rough and like a giant scab. Then we finished we swapped in the other group we played with tools and pretended they were a bird's beak. Then we all went back to the barn and set up our mattresses and sleeping bags. Then we went on our night walk and saw all the animals up close. My favourite was the tiger because it was sleeping near the window. When we finished the night walk we went back to the barn, got changed into our pj's, brushed our teeth and went to bed. No one went to sleep though because of all the animal noises. Early in the morning we all got dressed, brushed our teeth and ate breakfast. Then we went into 4 groups and had a look at lots of different animals. We even got to see the zoo keepers feed the elephants. I liked the Australian Bushwalk because I love Tasmanian Devils & koalas even though I didn't get to see the Tasmanian Devils I liked seeing the koalas. When we finished the Australian Bushwalk the class came together and played on the playground. When everyone finished playing our lunch was ready. We had Subway. Then we all went to look at some more animals but first our group stopped for some water because it was very hot. After we finished we went back to the barn, got our bags and walked to the bus and that was the end of zoo camp.
