

Monique

My strengths as a leader would be: I am honest, reliable and responsible. I try my hardest to do the right thing at all times.

I admire my mum because she always tries hard at everything she does. My mum never gives up when trying to learn something challenging. I am looking forward to helping with fundraising ideas. I am also looking forward to helping out students when in need.

My favorite quote is: "Before you are a leader, success is about growing yourself, when you are a leader; success is all about growing others."

- Jack Welch

Blake

My name is Blake. I think my strengths are that I am responsible and ready for all tasks. I listen to ideas and make sure the school is strong.

I admire Daren Glass (West Coast Eagles) because he never let us down and that is what I do. I am looking forward to being a student leader because I can really show myself to the school and make awesome ideas to make the students happy.

Darren Glass' quote is "Come on boys we can do this we never give up and always try our best, let's just have fun boys!"

Katie

My name is Katie and I am Cyclone faction captain. I believe I am the kind of person who you can trust if you have an issue, come and talk to me about it and I can help solve the problem. I also stand up for what I think is right and for others.

As a leader for 2015 I am looking forward to cheering my faction on at all sporting events such as swimming carnival, sports carnival and much more. I am also looking forward to getting to know my fellow student leaders and learning lots of new leadership skills and how I can be the best leader I can be.

As a leader I look up to quite a lot of leaders such as Steve Jobs, he invented Apple and without him people would have died because if you didn't have your iPhone with you, you wouldn't be able to call the police, ambulance or fire truck.

"Some people want it to happen, some wish it would happen others make it happen" is what Michael Jordan said. I like this quote because it is inspiring and true because some people just want things to happen and others actually work for it and make it happen.

Aiden

My name is Aiden

My strengths as a leader are being helpful, brave, kind and having very good sportsmanship.

A leader I look up to is my cricket coach. He tells me when I do good things and when I do things wrong he tells me how I can improve. He encourages us to do our best and play by the rules.

I am looking forward to learning how to be a good leader and the courses we will be going on.

A famous quote I like is by Dr Seuss "Don't cry because it's over, smile because it happened." I like this quote because it is cheerful, happy and makes you not want to cry.

Jacob

Hi my name is Jacob

Being a student leader means a lot. It is not about the badge it is about the students. Leadership is not what you do, it is how you do it.

There are a lot of leaders out there but one person I admire a lot is Lionel Messi. He is captain for 1 team Barcelona. He has a competitor who is Cristiano Ronaldo.

Chloe

As a sustainability captain I am looking forward to working in the school garden with all my peers. I am approachable, very friendly and am full of ideas which are great strengths for a leader.

I admire Janine Ellis, founder of Boost Juice, because she is an advocate for healthy eating and living. I like Janine Allis, she has two quotes I like,

“Confident is contagious” and “nobody ever learnt anything while they were talking. Listening may well be the most underrated quality of all”

Madison

Being a leader is wonderful and I love helping others around the garden. When I got my badge I was very proud of myself for getting it and being one of the first Sustainability Captains.

A person I admire is Julie Bishop, because she is nice and when she talks to people from around the world she doesn't offend them at all in any way, that's why she is a good leader.

I think this year is going to be great because I can help other teachers and teach kids how to use tools and work in the garden.

A quote from Julie Bishop that I know is “We are increasingly recognising and accepting respecting and celebrating our cultural diversity”.
